Electric Vehicle (EV) Charging Time-of-Use (TOU) Agreement

This Agreement made and executed this ____ day of _____, 20____, by and between People's Energy Cooperative headquartered in Oronoco, Minnesota (hereinafter referred to as the "Cooperative") and _____ (hereinafter referred to as the "Member").

The named parties understand and agree to the following:

1. The Member understands that EV charging TOU "Rate Schedule 167EV, 168EV, 169EV" is a separately metered, optional rate and agrees to the rate and terms as outlined in the rate schedule and approved by the Board of Directors. Services already on the "Optional Residential TOU" rate schedule may also be approved to connect a level-two hardwired EV charger.
2. It is recommended that the Member's EV charger is a hard-wired, level-two charger.
3. The Member understands they may choose to move to another available and appropriate rate at any time only after being enrolled in this rate schedule for a minimum period of 12 months.
4. The Cooperative shall not be liable for any damage or economic loss due to power interruption, such as an outage.
5. The member is responsible for ensuring the home electrical system will handle the additional EV charging capacity and any upgrades required are at the cost of the member. It is recommended that a licensed electrician assess the home electrical system prior to the purchase of an EV charger.
6. Member will assume ownership of the existing secondary wire if owned by the Cooperative at the time of entering this agreement. The member or member's electrician shall verify that the existing secondary wire is sized accordingly and make upgrades if necessary.
7. Services with interconnected distributed generation do not qualify *to have a sub-metered TOU service. The TOU service would have to be parallel metered.*
8. Member must submit pictures of their clearly labeled electrical panel and any equipment connected to the charger's panel prior to receiving the EV Charging TOU rate.
9. The Cooperative reserves the right to modify the terms and conditions of all rate schedules from time to time.
10. This Agreement shall be in effect as of the date indicated, for the period in which the current Member is occupying this location and chooses to be enrolled in this TOU rate. When service under this TOU rate is terminated, the member will be moved to an appropriate non-TOU rate and the Member shall not be eligible to apply for this rate for a period of 12 months.
11. This Agreement shall be binding upon and inure to the benefit of the successors, legal representatives and assigns of the respective parties.
