## PEAK ENERGY ALERT

**June 30, 2023** — Freeborn Mower Electric Cooperative (Albert Lea), MiEnergy Cooperative (Rushford), People's Energy Cooperative (Oronoco), and Heartland Power Cooperative (St. Ansgar) are issuing a peak energy alert for this afternoon beginning at approximately 2:00 p.m. Due to high demand on the regional electrical grid, cooperative members are urged to reduce usage as they are able.

**Members enrolled in energy management programs will be affected from approximately 2:00 to 6:30 p.m.**

Members can conserve electricity during this peak alert period by setting their cooling systems to at least 74°, higher if no one is home; running the dishwasher or doing laundry later in the evening; using a microwave instead of the oven to cook; and refraining from turning on televisions or gaming systems. Each seemingly small action can collectively make a big difference in the demand made on the electric grid.
