

DO THE SUMMER SHIFT

Electricity costs more during the summer, especially 11 am to 7 pm weekdays. Shifting energy use to before 11 am or after 7 pm on weekdays helps keep electric rates affordable for everyone.

- ➔ Shift the start of laundry.
- ➔ Delay the dishwasher.
- ➔ Turn up the thermostat.

It's so simple! Do the summer shift 11 am to 7 pm weekdays.

TOGETHER **WE** SAVE

Join the Cycled Air Conditioning Program!

Spring is here and it's time to think ahead about air conditioning. Extreme heat can cause the demand for electricity to peak and the price you pay for energy to increase. By enrolling in People's Energy Cooperative's Cycled Air Conditioning Program, you can help us manage those peaks and save money on your electric bill.

For more information and to get enrolled, visit our website at www.peoplesenergy.coop. By participating, you receive a \$5 credit on your electric bill for the months of June, July, and August!
